DAILY PITTSBURGH GAZETTE.

TUESDAY AFTERNOON, DECEMBER 3, 1833.

CHESAPEAKE & OHIO CANAL.—To morrow morning, at 10 o'clock, the meeting on the subject of this great improvement takes place—we hope that it will be generally attended. Meetings have been held in Washington, in Fayette, and in Westmoreland counties, memorials are there in circulation, and great exertions making to procure signatures—the present is supposed to be a favorable moment for pressing the application—let us, therefore, not permit it to pass unimproved. Let us unite with our fellow citizens in the adjoining counties, in urging upon the attention of Congress this great work, which was first suggested by the great and good Washington.

The importance of this proposed improvement is so well known, that we consider it scarcely necessary to remind our readers that it will pass through a section of country abounding with limestone, and through the finest region of bituminous coal in the world.

NULLIFICATION.—It will be seen, by an article from a Milledgeville paper, which we publish to day, that the disorganizing principles of John C. Calhoun are spreading, and extending their baleful influence, in Georgia.—The great agitator, Clayton, is busy, and the unfortunate interference of Mr. Clay, last winter, no doubt encourages bad men to advance to the very verge of treason, in the confidence that some other "great pacificator" will step forward at the critical moment and rescue them from that punishment which they richly merit.

We do not undertake to impeach Mr. Clay's motives; but we do most conscientiously believe that, by his ill timed interference, in March last, he contributed, greatly, to the growth of the noxious seed sown by John C. Calhoun.—The nullifiers had placed themselves completely in the wrong—they had advanced so far that there was but two alternatives before them, a disgraceful retreat or condign punishment; and, in either case, the spirit of nullification would have been defunct—for many years at least.—Just at this moment, Mr. Clay stepped forward with his great scheme of pacification, and released those traitors, *initiate*, from disgrace or punishment—not only saved them, indeed, but gave them a half a victory—enabled them to boast that they had overawed the great giant—the General Government—and thus induced other designing men, in Georgia, to follow in their footsteps.

PENNSYLVANIA CANAL.—The Collector of tolls, in Allegheny, has kindly furnished us a detailed account of the business transacted on the Western Division of the canal, during the month of November, from which we collect the following items of intelligence.

The aggregate amount of tonnage brought from the eastward, during that month, was 4,467,275 lbs.

Of this, there was of

Blooms,	1,658,326	
Pig metal,	112,560	
Salt,	1,241,702	3,580,282 lbs.
Castings,	75,167	
Iron,	492,527	

There were, exclusive of the above aggregate, the following articles, upon which tolls are not charged by the pound: 19 tons of hay, 119 cords of wood, 24 cords of bark, 515 locust posts, 1,500 feet lumber.

The amount transported eastward was 822,266 lbs.—of which amount there was of

Castings,	127,484	pounds.
Pork,	126,039	"
Tolls received at Pittsburgh,	$803,70½	
Do. do. Leechburgh,	315,60	
Do. do. Blairsville,	1,598,93¾	
Do. do. Johnstown,	303,86	
Total,	$3,022,10¼	

The same inequality between the tonnage sent east, and that coming west, which was noticed in October, still exists, thus proving that the tolls on articles going east are too high. We trust the canal commissioners will take this matter into consideration, at an early day, and reduce the tolls on tobacco, flour, pork, &c., to as low a rate as they may think admissible. Of the 4,467,275 lbs. of freight brought to Pittsburgh, it is a circumstance worthy of notice that only about one half million pounds were of foreign productions, and that iron and salt alone, articles produced along the canal, compose four fifths of all the articles transported west, upon which tolls are charged by the pound. It is quite probable that the amount saved to citizens of Pennsylvania, on the transportation, by means of the canal, amounts to at least twice as much as the tolls paid to the commonwealth.—In estimating the value of our State improvements, it is not sufficient to confine ourselves to a calculation of the amount of the direct income arising out of them. The saving in the cost of transportation, and the increased value given to property generally, should also be taken into the estimate.

For the Gazette.

MR. CRAIG—I know not when I was more delighted than in reading the Address of James Hall, delivered before the Erodelphian Society of Miami University.—The subject is popular education, and well and beautifully does he dispose of it—such a writer is an honor to our own, or any other land.—After having spoken of the importance of education to those who are "to sway the sovereign power of our country," the writer says—

"Allow me to suggest, that an equally important topic, is the education of that sex who will train up its citizens, and rule its rulers. It is a subject which appeals with equal force to your reason, and with even greater tenderness to your affections. Why should the fairer sex be neglected in all our systems of public instruction? Not only does her weakness claim protection, but the duties of woman, in the business of life, are as solemn and as important as those of man. To her loveliness and virtue, to her fidelity and tenderness, are we indebted for all the social comforts, and the hallowed enjoyments of society and home. On her we lean in adversity, in sickness, and in sorrow; her faithful bosom is the sacred repository of our most secret thoughts; it is her love that renders life a blessing, and home a paradise. She is the nurse of helpless infancy, the companion of joyous youth, the friend of maturer years, the staff of old age, true to all her duties, faithful to every dictate of affection. When the clouds of adverse fortune lower upon the path of friendless man—when all others are faithless—when a cold world, forgetful of the kindly charities of heaven, of nature, and the heart, frowns on the child of adversity, the purer and the holier sympathies of woman, cling with unabated fervor round his fallen fortunes. Under all changes, she is true

As the sun flower turns to her god when he sets,
The same look that she gave when he rose.

And shall we neglect the well being of those who are so dear to our hearts, so faithful to our interests? How often are they thrown defenceless upon the cold charity of the world! How often is the helpless widow, or the orphan girl, compelled to labor with her own hands, for her own subsistence! Incapable of the severe toils of manhood, and excluded from the ordinary paths to wealth and honor, how hard the lot, how hapless the condition, of an unprotected woman! But there are labors which she may perform; there are arts suited to the weakness and delicacy of her frame; there are departments of industry and science, in which she may be rendered independent, and useful, and respected.—And there is another point of view in which the interest of our fair country women may be regarded as closely interwoven with the destiny of their country. They are the sisters, and the wives, and the mothers of freemen. From the lips of a tender mother, the young patriot first learns the lesson of devotion to his country; from her tongue, in the secret hour, when no eye beholds them, he first learns the history of his being, the nature of his moral relations to his fellow man, and the precepts of that religion, which is the only safe guide to his faltering steps, either as a citizen of this world, or a traveler to a better. It is she who gives the first and the most lasting impression to the human mind. So true and so universal is this principle, that in tracing back the origin of great men, who have risen to eminence from humble circumstances, you will scarce find one whose young ambition was not fanned into existence by the teaching of a faithful mother."

IMPORTANT FROM MEXICO.

By the brig Splendid, Capt. Clark, Vera Cruz papers to the 31st of October, have been received.

A few cases of cholera had reappeared in the city.

The main body of the insurgents had been totally defeated at Mellado, a suburb of Guanaxuato, on the 9th of October. Four hundred men were taken prisoners in the intrenchments, after which the whole remaining force, amounting to 1,500 men, including Gen. Arista, one of the principal leaders of the rebellion, capitulated, stipulating only for their personal safety.

Gen. Duran, with 400 or 500 cavalry, had endeavored to make his escape, but 1,000 men were despatched by Santa Anna in pursuit of him, and no doubt was entertained but that he would share the fate of his companions.

Santa Anna arrived at the capital on the 20th, with 428 prisoners, viz: 1 colonel, 5 lieut. colonels, 16 captains, 14 lieutenants, 24 sub lieutenants, 20 1st sergeants, 31 2d do., 47 corporals, and 270 privates.

Accounts from the military commandant of Amozoque, Chalchiconulla, and Tehuacan, state that General Duran had suffered much from desertion, having but 300 or 400 horsemen with him.

Lorenzo de Zavala has been appointed Minister Plenipotentiary of the Mexican Government to that of France, and Augustin Escudero, Secretary of Legation.

Muis Maria del Valle has been appointed Mexican Consul at N. Orleans.

Mexico, Oct. 8.—We recommend to the worthy Chamber of Deputies, the speedy disposal of a petition which is pending relative to the political organization of the Colonies of Texas. Few subjects can be presented to our legislators of so much interest to the Republic. The *Austinians* cannot long endure the state of disorganization in which they are involved; they sincerely desire to retain their union with the Republic; it is for their interest that this union should be perpetual; but the most urgent necessity of a people is to have a government, and the people of Texas have none. So, many families who have left their country to establish the arts and civilization in ancient forests, inhabited only by savages and wild beasts, deserve from Congress a special regard.

Mexico, Oct. 24.—General Villandi gives notice to the government that he has entered Iguala, with the troops under his command, the rebels who had occupied it having fled with precipitation. About 3000 men were in the field against Gen. Garcia, who would soon be compelled to surrender.

The lowerings of discontent in the Southern States, which for a time seemed to be pacified, or at least subdued, are, as the season for the meeting of Congress approaches, manifesting themselves, anew, and over a more extended sphere.—In Alabama, nullification—downright practical nullification—is openly threatened, and with such earnestness and reality of purpose, as to induce the general government to prepare for the support of its authority by the arms of the military force of the Union. In South Carolina, the test oath, it is openly proclaimed by the State Rights papers, is to be enacted by the Legislature; which oath is nothing more nor less than the swearing of allegiance first and chiefly to the State, and to the United States afterwards. Now as the Constitution expressly establishes that its own provisions, and all laws made in conformity therewith, shall be supreme—the constitution or laws of any State to the contrary notwithstanding—this oath to support the State as against the United States, for that is its real meaning, is little else than treasonable.

In Georgia, too, the spirit of resistance to the authorities of the Union is rife, as will be seen by the account, under the Georgia head, of a great State Rights meeting at Milledgeville. If blood should be shed in Alabama, (and we are not without our fears that it may be,) a flame would be lighted up throughout the South and South west, of fearful import to this Union. Yet we are for carrying into effect, at any cost, the laws and treaties of the United States; for, unless that can be done, it is hardly worth while to talk any more of our living under a Government of laws.

Altogether, Congress will assemble next Monday, under auspices sufficiently discouraging.—*N. Y. Amer, Nov.* 26.

From the Georgia Chronicle, of 16th November

GREAT STATE RIGHTS MEETING.

Agreeably to previous appointment, a large concourse of the Friends of State Rights, from all parts of the State, amounting probably to about five hundred, met in the Representatives' Chamber, at 7 o'clock, last evening. The Chamber was crowded to excess, not only in the seats, but the space at both ends, between them and the fire places, and the aisle, nearly up to the Clerk's Desk, from which they crowded back with great difficulty; and, we believe, it may with certainty be said, that a greater array of talent, worth, distinction, and influence, was never before assembled in the State. Judge C. B. Strong, of Macon, was called to the Chair, N. C. Sayre, of Sparta, and Judge A. B. Longstreet, of Augusta, were appointed Secretaries. On motion of Judge A. S. Clayton, of Clark, a Committee of thirteen was appointed by the Chair,—consisting of Judge Clayton, Judge W. H. Crawford, Dr. Wm. C. Daniel, Col. Seaborn Jones, R. W. Habersham, Esq., D. P. Hilhouse, Esq., Col. S. Rockwell, Col. A. H. Chappell, Col. Geo. H. Young, Gen. R. A. Beall, Col. —— Newton, Gen. Eli Warren, and Judge Charles Dougherty—to draft resolutions expressive of the views of the meeting, and after some time spent in retirement from the Assembly, they returned, and through Judge Clayton, reported a most able Preamble and series of Resolutions, setting forth and denouncing the Proclamation and Force Bill—forming the Meeting, and those who approve it, into a party, to be called the State Rights party of Georgia—adopting, as the creed of the party, the Virginia and Kentucky Resolutions, as evidently construed by Mr. Jefferson himself, and acted upon, as well in those times, as in Georgia, in 25, 6, 7, and 8—recommending the formation of a State Rights Association in each county, and a Central Association in this county, Baldwin—determining to exert every just and proper means against the Force bill and its principles, and requesting our Senators and Representatives in Congress to press the repeal of it—asserting the unqualified Sovereignty of the States, and their right of Secession, and to judge of infractions of the Constitution, and the mode and measure of redress—and declaring the determination to sustain the State at all hazards, in all measures for the protection of its rights and Sovereignty, which may be determined on by the Sovereign power of the State. It was, indeed, a very eloquent and conclusive Report, and cannot fail to carry conviction to the heart of every true State Rights man who reads it, as it did to every one that heard it.

The Report was, on motion of Judge Clayton, taken up by paragraphs, and finally adopted, without amendment or further discussion, *unanimously!*

The meeting then adjourned, with the utmost harmony, and as fine a feeling as ever ennobled such a cause; and apparently in full confidence, in all present, that Georgia must now soon be herself again!

Milledgeville, Nov. 14, 1833.

The ships Herald and Jane, chartered to carry the U. S. troops from Fortress Monroe to Savannah, sailed from this port yesterday with a strong north west breeze. They will probably reach the Fortress this morning. The Norfolk Herald of Monday has the following paragraph on the subject.—*Balt. Amer.*

'*Military Movement.*—The troops at Fortress Monroe are ordered to embark immediately for Alabama, and two ships have been taken up to transport them thither. We also learn that the military force at New York is ordered to the same point.* They will be landed at some place on the Savannah river, and marched through Georgia to the U. S. military post in Alabama.—We have not heard a whisper of any new occurrence to call for this sudden movement; and if there has been none, it will appear strange that the messengers of war should so soon follow the messenger of peace, Mr. Key, who was but the other day despatched by the President to the Governor of Alabama for pacific purposes.'

*In all twenty companies, as we learn.

From Georgia we learn that John P. King has been elected a Senator of the United States, to succeed G. M. Troup, resigned. In joint ballot of the two Houses of the Legislature, he is reported to have received a majority of thirty six votes over J. M. Berrien (the late Attorney General of the United States) who was voted for in opposition to him. Mr. King belongs to what is called the "Union party" in the State.—*Nat. Intelligencer.*

The London Sunday Times states that the British ministery have in contemplation an important plan for the relief and benefit of the people, the details of which are now in progress. They intend to form an establishment, in every parish, under the guaranty of Government, for the granting of annuities. A person, paying ninepence per week from the age of fifteen, is to be entitled, after the completion of his sixtieth year, to an annuity of twenty pounds for life: and if he prefer to pay eighteen pence per week, to an annuity of the same amount from the age of 35. Persons paying 67*l.* 10*s.* at once are to have considerable advantages held out to them, and the annuity of 20*l.* will be allowed at a stated period. The poor, who may become subscribers, are to receive the benefit now enjoyed by the proprietors of those institutions in which annuities are granted. If at any period, a subscriber chooses to withdraw what he has thus deposited, he is at liberty to do so, but will have no claim to interest, though from the time when the annuity becomes payable, the privilege of withdrawing the principal is to cease.

The Emperor Nicholas, of Russia, has been denounced by the British House of Commons, and reprobated by all the *liberalism* of Europe, as the oppressor and destroyer of the Poles and the chief foe of free institutions and national independence in Europe. In Philadelphia, he forms one of the regular toasts at a *Democratic*, public dinner, and an object of panegyric and homage in the speech of an American minister just returned from his court. This is one of the contrasts, if not of the marvels of the day.—*Nat. Gaz.*

There is now living at Clapham Common a lady who was present at the coronation of George the Third. It may also not be generally known that the widow of the celebrated circumnavigator, Captain Cook, is living at Clapham, and, we believe, is nearly a hundred years old.

The Helvetic states, that the Executive Council of Zurich has given a positive and unanimous refusal to a demand from a foreign Government for the delivery up of a political refugee, thus consecrating the sacred rights of hospitality.—*London paper.*

M. de Chateaubriand has published statistics of the victims of the first French Revolution: from which it appears that the number of persons guillotined was 18,613, of which number 2,217 were females, and 13,635 were men of the middling and lower classes. In addition to those guillotined, M. Chateaubriand states that there were killed in La Vendee 940,741, including 22,000 children, and 3,400 women, whose deaths were occasioned by premature labor, and that the victims at Nantz, by order of Carrier, were 10,224, and at Lyons 31,000 making a gross total of 1,000,585, without reckoning those massacred at Versailles, and in prisons at Paris, nor those that were shot at Marseilles, Toulon, and other parts of France.

Old Bachelors.—Newton, Galileo, Michael Angelo, Locke, Hume, Pope, Bacon, Voltaire, and Cowper, are among the very many distinguished men who lived a life of single blessedness. But Cowper was always in love, and never happy but in female society. A woman caused him to undertake the translation of Homer's Iliad. The same woman first inspired him with the spirit of his John Gilpin.

Organs.—Holland has been always celebrated for its organs. Many lovers of music have made a journey on purpose to hear the one at Hærlem. The church is cruciform, 361 feet long, 273 broad, and 111 feet high, on the inside. The organ itself is 108 feet high, from the floor, and 50 feet wide. It was made by Christian Muller, in 1758. I had always been under the impression that the largest pipe was 60 feet long, but this is not so. The extreme length of the lowest toned is 38 feet, its depth, or inside measure, 32 feet by 15 inches diameter inside. There are two of this size. It has three banks of keys, and the pedal sixty stops or voices, four separations, two swells, two accouplements, twelve bellows, each of which is 9 feet by 5, and nearly five thousand pipes.

DIED,

In this place, at half past 9 o'clock last evening, Mrs. MARY WOLF, consort of his Excellency GEO. WOLF, Esq. Governor of Pennsylvania, in the 54th year of her age. Thus has death deprived a husband of a friend and companion; a large family of an affectionate mother, and created a void in society which will be long felt and regretted.—*Harrisburgh Intel. The brig Ann, captain Langdon, cleared yesterday and dropped down the river, and will proceed with the first fair wind to the West Coast of Africa. She is chartered, it will be recollected, by the Maryland Colonization Society, and carries out the emigrants and missionaries who design to settle at the new Colony, "*Maryland*," which is to be established at Cape Palmas under the auspices of our own State Society. They carry with them the prayers of many for a safe voyage and prosperous issue of their important undertaking.—*Balt. Amer. Nov.* 28.

DIED,

On Friday night, at 12 o'clock, Mrs. AGNESS DRUM, wife of Simon Drum, Esq., Postmaster, of this borough, in the 47th year of her age. To great simplicity of character, love of truth, much warmth of friendship, and ardent attachment to her family, Mrs. Drum united a deep and all pervading sense of the infinite obligations she owed to her Divine Redeemer, as her prophet, her priest, and her king. Jesus was her Savior, and on his righteousness alone was her dependence for final happiness—a righteousness wrought out for sinners by his perfect obedience to God's holy law, and by his suffering the penalty of its infraction in the room of sinners. On the atonement of the Divine Son of God was her faith fixed while living, and she triumphantly felt and expressed it when dying. She was a member in full communion with the Presbyterian church. An affectionate husband and nine children mourn the loss of a most kind and devoted mother.—*Greensburgh Intelligencer.*

For the West.—The wind, which since Monday, has blown from the south west, hauled this morning to the northward and westward. As this is a leading wind from port, the hint was not lost upon our navigators. At half past 9 o'clock this forenoon, we counted *thirty seven* sail then in sight, and under way—outward bound. Many others were busily unmooring in the harbor, and should the wind continue favorable, we may expect to see the harbor deserted ere sun down.—Many goods are still here, and, should our present stern winter permit, some, at least, of these vessels, will yet take another freight. So great has been the press of goods, the whole season, that the usual supply of salt for the west could not be sent, and several thousand barrels now needed there, although ready, cannot be forwarded for want of vessels upon which to ship.—*Buffalo Journal, Nov.* 20.

NEW ENGLAND.

Oh, who upon his lips could lay
The seal of caution strong,
And calmly give the slander way
That does his country wrong?
Who can restrain the burning word,
The fearless glance of youth,
When each indignant thought was stirred
To witness to the truth?

New England! glorious, native land!
When false to thee I prove,
Then palsied be my faithless hand,
My lips forget to move!
When thou art challenged, shall my voice
In thy good cause forbear?
No! be a nobler part my choice,
Here—ever—every where.

Home of the good, the brave, the wise,
Bold youth and beauty bright,
The sun, as on his course he hies,
Beholds no lovelier sight.
Italia's vales with perfume glow,
From every flowery tree;
But ne'er those lovely valleys know
The breath of Liberty.

Bright beams the sun on Syria's plains,
Where ancient prophets trod,
And held in nature's forest fanes
High converse with their God.
But holier are the hills that bind
Thy stormy ocean shore,
For there the sacred human mind
Knows its full strength once more.

There, in the cottage and the hall
As bursts the morning ray,
The hymn of praise ascends from all
To him who gives the day.
There, as the evening sun declines
They meet in harmless glee;
On all the beam of pleasure shines,
For all alike are free.

Yet, if I love thee, native land!
Is the bright South less dear?
Can I not prize the lofty band
Of generous spirits here?
Souls warmed with honor's sacred fire!
Hearts true in friendship known!
Fearless I strike the patriot lyre—
Its spirit is your own.

Nov. 29, 1833.

In the Court of Common Pleas, of Allegheny County, of October Term, A. D., 1833., No. 362.

IN the matter of the petition of James Gray, of Wilkins township, for an order directing the entry of satisfaction upon a certain mortgage, &c.

And now, to wit, the sixteenth day of November, A. D. 1833, the petition of James Gray, of Wilkins township, being read to the Court, in which is set forth, that the said James Gray is the owner of a certain portion of Lot, No. 325, in the city of Pittsburgh, bounded by Market street, by Fourth street, and by the other portion of the said lot, being in front, on Market street, thirty feet, and in depth, on Fourth street, about one hundred and two feet, on which are erected a three story brick house and other buildings; that, on the eleventh day of June, A. D. 1823, Samuel K. Page, who claimed, at that time, to be the owner of the said property, executed a mortgage thereof, to a certain John H. Fielding, now of Augusta, in the State of Kentucky; that the said John H. Fielding, on the nineteenth day of June, A. D. 1826, assigned the said mortgage to John McDonald, of the city of Pittsburgh, since deceased; that, on the seventh day of December, A. D. 1830, it was agreed, by and between the said John McDonald and a certain C. O. Page, now of Louisville, in the State of Kentucky, that, if certain notes, at that time delivered to the said John McDonald, were paid at maturity, the said mortgage should be assigned to the said C. O. Page; that the said John McDonald died in the month of May, A. D. 1831, leaving a will, of which Stephen Colwell and Joseph Patterson were appointed the executors; that the said mortgage has been paid more than two years, &c. &c.; and praying the said Court to direct a notice to be served upon the said Stephen Colwell and Joseph Patterson, executors, as aforesaid, and upon the said C. O Page, requiring them to appear at the next term of this Court, to answer this petition; and further praying the said Court, upon full proof being made of the payment of the full amount due on said mortgage, to order satisfaction to be entered upon the said mortgage, &c., &c.—it was ordered by the Court that a notice, setting forth the facts stated in the said petition, and also this order, be made out by the Prothonotary of this Court, under his hand and the seal of this Court, requiring the said Stephen Colwell and Joseph Patterson, executors, as aforesaid, and the said C. O. Page to appear on the fourth Monday of December next, before this Court, to be held at Pittsburgh, aforesaid, and answer the said petition; which notice is to be served upon the said parties, if to be found in this county, and if not to be found, a copy of the said notice is to be published in two newspapers, published in the city of Pittsburgh, once a week, for four successive weeks, prior to the 4th Monday of December next.

Witness my hand and the seal of the said Court this twenty ninth day of November, in the year of our Lord one thousand eight hundred and thirty three. HARVEY H. PETERSON,
Prothonotary.

THE said C. O. Page is hereby notified to appear, on the 4th Monday of December next, at a Court of Common Pleas, to be held at Pittsburgh, in and for the county of Allegheny, to answer the said petition.

WILLIAM LECKY, SHERIFF.

A CARD—TO THE PUBLIC.

THE undersigned, manufacturers of Salt, on the Allegheny, Kiskeminitas, and Conemaugh rivers, in consequence of the *ruinous rates* to which salt has been reduced, during the past year, in part owing to causes which are not likely soon to occur again, have, after mutual advisement, agreed and fixed upon the following prices; below which they will not dispose of the article, at their respective establishments, nor authorize their agents elsewhere so to do; viz:—

$2 per barrel of 280 lbs. of salt;
40 cts. pr. bushel for any amount under 5 bushels;
35 cts. pr. bushel for any amount over 5 bushels.

The above rates they consider as affording the article to the consumer at a moderate price, and yielding but barely a reasonable compensation to the manufacturer for his labor.

The following manufacturers have established the above prices:

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn. It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.
